

Snappers Photo Tips

It's possible to star in a Youtoonz adventure by submitting just a single photo to us but it's even more fun if we can use a variety of photos showing different facial expressions and head positions.

Taking the pictures is easy!

Take close-up portrait style pictures of your subject. Be sure to get the whole head in shot including hair.

Photograph your subject against a plain background (preferably a plain white wall). They should stand about a foot away from the wall to minimize shadow.

Photograph your subject with each of the following expressions with at least one with your subject looking to the side.

CHEERING OR SHOUTING

FEELING SAD

SMILING

SURPRISED

THINKING

Then simply e-mail your pictures to us at info@youtoonz.co.uk

or post them to us at
